

Matthias Wyder

CEO, Swiss Credit Partners

Swiss Credit Partners is pleased to announce the completion of its 10th credit transaction for a Swiss company.

To date, we have arranged, co-arranged and participated in loan transactions ranging from CHF 20 million to CHF 500 million, with typical final hold positions of Swiss Credit Partners between CHF 20 million and CHF 75 million. In total, close to CHF 300 million of capital has been deployed.

We are glad to share that two additional investors have joined the fund, bringing the total committed capital to CHF 1.3 billion.

Our initial team of three employees has grown to seven, with a further two colleagues expected to join the firm by the end of the year.

We are excited about the opportunity to continue supporting mid-sized Swiss companies and to further strengthen our collaboration with the Swiss banking market.
